Subject: OR - CZARA Min. Bar and Options Documents
Attachments: CZARA Forestry 12-17-14 Final.docx; Reasonable Options Oregon CZARA 12 17 14 final.docx

Dennis, attached you will find two documents for your and Will Stelle's consideration. You've seen both documents before but they have been refined/revised. One is a brief summary of the status of Oregon's forestry program and the minimums to get over the bar for purposes of CZARA. The other is a longer overview of possible options the State could consider to get to an approvable program. We've incorporated NMFS comments.

I will provide hard copies to Kendra and Matt.

Let me know if you need anything else.
